Re: Park prioritization for DIFs

At our September 16, 2020 meeting, the Downtown Community Planning Council voted 16-1 to approve the recommendation by staff to prioritize our park's DIF spending for, in order, North Central Park, then St Joseph's Park and then East Village Green, Phase II.

This approval was based on North Central Park being a timely and pragmatic choice. But should any significant barrier in logistics arise which would delay North Central Park, we'd ask that St Joseph's Park be pushed to the front.

Cordially,

Bill Orabone
DCPC 2020 Chair
